**APPLICATION FORM FOR GRADE 7
FOR SCHOOL YEAR 2023-2024**

Use this form to apply for weighted-curriculum education, extensive bilingual education and basic education in English starting in Grade 7. You can also use this form to apply to another school that is not your local school. This form is for pupils who are not currently studying in Grade 6 at a municipal school in Helsinki. Pupils of municipal schools in Helsinki fill in the application form in Wilma. When admitting new pupils to municipal schools in Helsinki, residents of Helsinki are given priority.

The application period is from **14 November to 7 December 2022**. Fill in the form and return it to your school option number 1 by the end of the application period.

You can apply to a maximum of five different options consisting of a school and the weighted-curriculum education option. Mark the alternatives in your order of preference so that option number 1 is your primary application option. The options will be processed in the given order of preference. If the pupil is admitted in option number 1, they will not be considered in the admission for other options. Once submitted, the options and their order are binding and changing them after the application period has ended is not possible. If the pupil is admitted in a school they are applying to, they are obliged to accept the offered school place.

Admission to weighted-curriculum education requires taking an aptitude test. Schools offering same weighted-curriculum education use the same aptitude test. The applicant takes the aptitude test in their first school option of the given weighted-curriculum education. The applicant must pass the aptitude test in order to be eligible for admission. New pupils for weighted-curriculum study groups are admitted in the order of their aptitude test score, and the groups are filled in this order up to the maximum number of pupils.

You can find a list of all schools offering weighted-curriculum, bilingual and English education on the following webpages:
